DATA SUMMARIES

Special Issue:
1975 Census Data Availability

Suite 400, 1225 8th Street
Sacramento, California 95814
PH. 447-9171

Data collection for the 1975 Special Census was concluded last fall. Initial processing of results by the State Population Research Unit took place during the months of October, November and December. The raw data tapes were then purchased by SRAPC for compiling special requests for City and County governments who paid for the Census. This work, interspersed with other SRAPC priorities, is currently underway in the Research and Information Services Section.

The Census results are being made available in a number of different forms:

1) The initial processing by the State produced a computer printout known the "First Run Tabulations". Results are represented for all questions asked by Block, Census Tract, and Jurisdiction. These printouts are available in the Commission's Offices, Research and Information Services Section. No further processing is done by the State.

2) SRAPC has produced a set of Data Summaries (currently 15 in the series) dealing with jurisdictional population, ethnicity of households and persons, by jurisdiction, and income of households and persons by jurisdiction.

3) A Comprehensive Summary has been prepared for each jurisdiction to provide basic household and special question information at the lowest reasonable cost. These summaries are prepared at the major zone level which is comparable to the Federal Census Tracts.

4) Special Request Cross-Tabulations are being prepared currently. The following have been completed:

Yolo County: Age, sex, and ethnicity by jurisdiction and health service planning areas.

City of Davis:

1) Households with principal wage earner only by income category by own or rent.
2) Households with principal and secondary wage earners by income category by own or rent.
3) Mortgage payment by income for all owners and owners over 65.
4) Rental payments by income for all renters and renters over 65.
5) Geographic area where principal wage earner works by geographic area where secondary wage earner works.
6) Occupation by income by major ethnic group.
7) Length of residence by category of monthly mortgage or rental payment.
8) Occupation by income by sex of full time employees.
9) Status of Occupation for principal and secondary.
10) Income by size of households.

INSTITUTE OF GOVERNMENTAL STUDIES LIBRARY
MAY 17 1976
UNIVERSITY OF CALIFORNIA

Roseville: (By Neighborhood Communities)

1) Status of household members (Under 16 in public schools, over 16 either employed or unemployed).
2) Ethnicity by persons and households.
3) Income by ownership and rental.
4) Type of structure by number of bedrooms.
5) Income by ethnicity.
6) House payments or rent by ethnicity.
7) Occupation of wage earners by location of work.
8) Occupation of wage earners by income.
9) Gross income by location of work.
10) Number of persons in household by gross income.
11) Condition of housing unit be ownership or rental.
12) Location of employment by ethnicity.

Yuba County:

Ethnicity by age by polling place.

Sacramento County:

Population by block by supervisorial district.

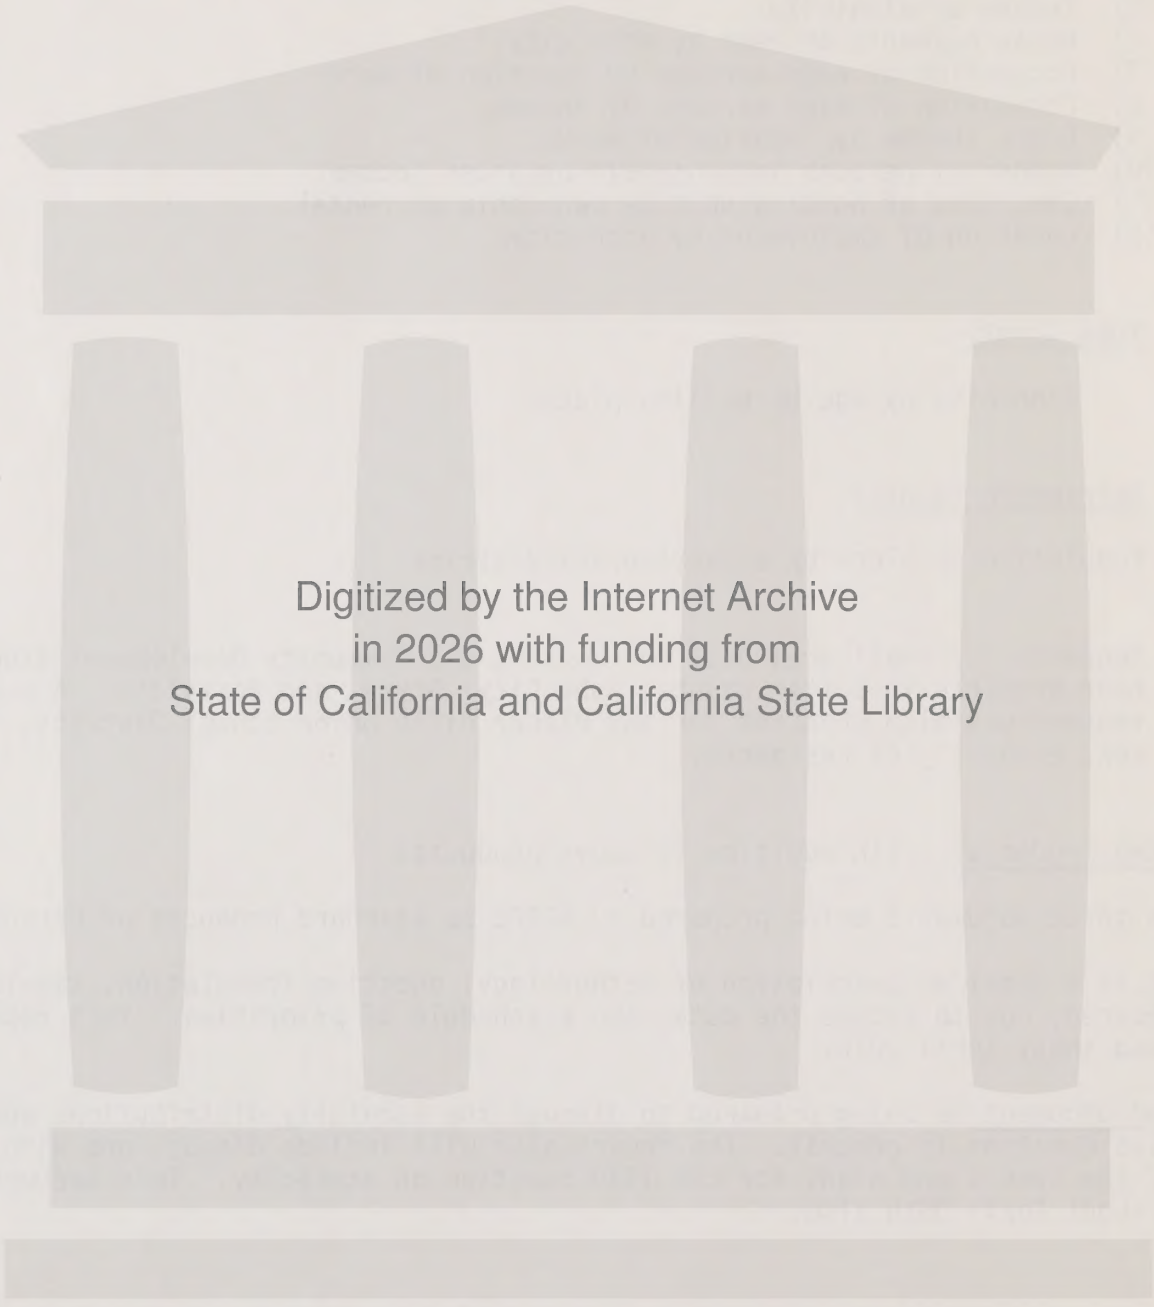
5) Requests for small area data for Housing and Community Development studies have been prepared in Sutter County, Yuba City, Bryte, and Roseville. A small area request was also prepared for the Placer Hills Union School District, for age, sex, ethnicity of residents.

Anticipated Products: (In addition to above products)

There are three documents being prepared by SRAPC as standard products of Census.

The first is a detailed description of methodology, question formulation, tabulations being prepared, how to access the data, and a schedule of priorities. This report will be released about April 30th.

The second document is being prepared to discuss the ethnicity distributions and ethnicity as a census question in general. The report also will include discussions with the Federal Bureau of the Census and plans for the 1980 question on ethnicity. This document will be released about April 30th also.



Digitized by the Internet Archive
in 2026 with funding from
State of California and California State Library

https://archive.org/details/igsl_journal-srapc-data-summaries_1975_v40-28

The third document is a report on Socio-Economic Indicators derived from the Census and other sources. This document will be released in May.

(During the summer months, a mapping program is scheduled to reproduce Census Data on distribution maps.)

Schedule and Priorities:

The priorities for Census data have been established by the 1975 Special Census Liaison Committee. This Committee, which finished its work in January and has been disbanded, was chaired by Don Farrimond of the Research and Information Section of SRAPC. The priorities decided on and resulting schedule were worked out carefully with the SRAPC Work Program. However, some sliding of census products scheduling has occurred due to some SRAPC Work Programs.

The currrent schedule is as follows:

Yolo County- all requests complete by April 30th.
Sutter County- all request complete by April 30th.
Yuba County- all requests complete by April 30th.
Roseville- all requests complete by April 16th.
Placer County - all requests complete by April 30th.
El Dorado County - complete
Sacramento County- (special programming request being prepared)

(This schedule includes products from standard programming. Special programming requests are worked out individually.)

How to access the data:

Requests for data can be made at any time to SRAPC, Research and Information Services, (916) 447-9171, Extension 75. These requests will be processed when the City and County requests are completed. Data will be prepared on a cost basis if new tabulations are needed. However, most needs can be met using data already prepared. In these cases, a nominal charge is made for reproduction. Any product, from first run tabulations to any computer printout, maps, etc. can be used in the SRAPC Library on request.

DATA SUMMARIES

1975 Special Census

Suite 400, 1225 8th Street
Sacramento, California 95814
PH. 447-9171

The 1975 Special Census has stirred a great deal of interest, as well as controversy, in ethnicity data and other planning related information.

Results are now becoming available through Sacramento Regional Area Planning Commission, the coordinating agency. First priority for processing results is given to the City and County governments who paid for the Census. As these requests are processed, and approval is granted for release by the owning agency, a summary will be prepared of tabulations of general interest and reproduced in the Data Summary format.

Volume 4 of the Data Summary Series has been reserved for the 1975 Census. Release will be made frequently to a wide spectrum of interested groups, including the news media.

For further information or to get your name on the mailing list, please contact Don Farrimond, Sacramento Regional Area Planning Commission, Research Section at (916) 447-9171.
